## COMPANY PROFILE

Established in 2014, ASIAN PACIFIC INDUSTRIAL LIMITED focused on providing active and inspired OEM home-ware products solution.

API is specialized in providing 18/8 vacuum container, plastic lid and pump sprayer for customers around the world.

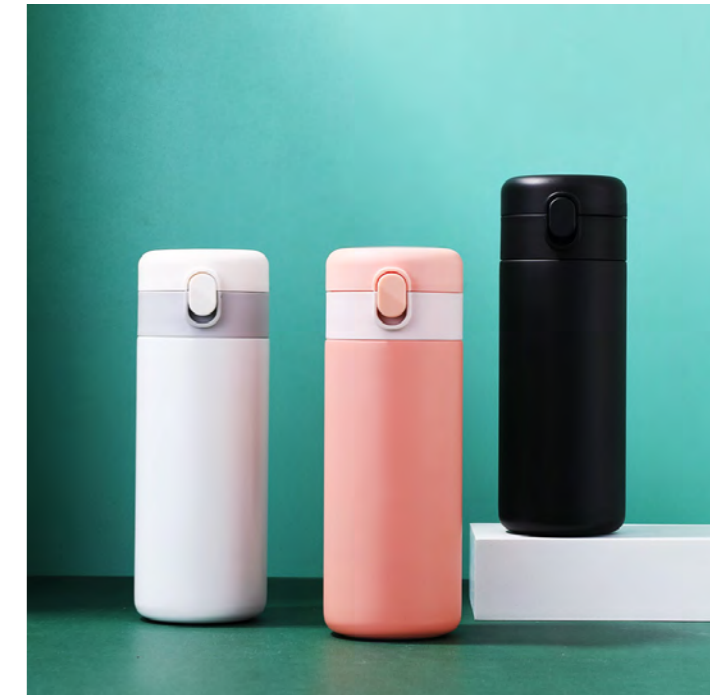

Benefit from our fully automatic CNC machines and testing devices, API is well positioned to meet different market needs with wild product range.

With many years of OEM and designing experiences, our development center has constant energy to develop new product, explore new technology for marketplace and customer requests.

Customers from Asia, USA & EU could come to us to start a special designing order with no need to go aboard. API is bringing more and more customer projects from global top brand clients with high efficiency but low cost.

We are dedicating not only to provide the best products service, but also to offer the most competitive prices. We believe with our efficient management and highly mechanized productivity, our customers could obtain leading position and advanced competitiveness in local market.

We are expecting you to visit and joint us for further cooperation in any time.

# STAINLESS STEEL VACUUM FLASK

The Stainless Mug features a durable 18/8 stainless steel interior and a steel wrapped plastic lid. It is slightly narrower for an easier grip compared to other mugs with the same capacity.

- A steel wrapped plastic lid prevent inside plastic from touching beverages, No Leaching!
- Stainless steel vacuum insulation keeps beverages hot or cold for hours
- Tight fitted lid keeps beverages hotter or colder than travel mugs
- Wide mouth accomodates full size ice cubes
- Compact design takes minimal space while maximizing capacity
